## Capabilities Statement

---

Easy Fence, LLC is a small family-owned business located in the Western region of the United States. We provide fencing solutions that are lightweight, easy to install, yet strong enough to handle high pressure stretching. No special equipment is needed. Easy Fence, LLC commits to treating our customers with honesty and fairness in providing quality, long-lasting fencing solutions. To us, time is money; that is why Easy Fence products work so well.

Easy Fence, LLC offers H brace panels and end braces compatible with steel T posts or other posts. Easy to transport, easy to install, will work in a variety of soils and variable terrain, will not burn. ATV ride over cattle guards, available in sizes from 30" wide to 84" wide with lengths of 8', 10', or 12' long, optional tall side rails. Bicycle ride over cattle guards easy to install, easy to cross. Steel rock jack crib braces, assemble on location. Easy Step Fence style crossing. Sage grouse fence markers.

Design, sell and manufacture quality fencing products. Uphold our reputation by continuing to use materials made in the USA. Commitment to treat our customers with honesty and fairness. Meet the needs of our customers with innovation and adaptability. Provide a great place to work for our employees.

## Core Competencies

---

- H brace panels and end braces
- ATV ride over cattle guards
- Bicycle ride over cattle guards
- Easy step fence style crossings
- Steel rock jack crib braces
- Sage grouse fence markers

## Differentiators

---

Our panels and braces are for use wherever conventional types of bracing are required to reinforce corners, gates, or straight lines. Innovation and adaptability allow us to meet every customer's needs. Over 30 years of experience help us to produce a quality, durable product. Powder river research and development engineer's strength tests prove reliability. Designed to be permanent or reusable when used as a temporary fence. No welding or drilling is required. Will not burn or deteriorate.
